PRICE SHEET

Colorado and New Mexico

Prices subject to change without notice.

SOS-REG

3 oz bottle & lid • 1 gray oil sample identification card • 1 pc cut tubing • 1 yellow mailer container for Denver

"Regular" Oil Samples

Individually shrink-wrapped. May be bought individually or sold boxed @ 25 per box. Sample price includes postage. Discounts are given for quantity purchases. This is considered a "basic" oil sample.

Price includes wear & additive elements, water, glycol, fuel dilution, viscosity at 100 C. \$13.50 to \$15.50 each, depending on qty.

SOS-LIVE

3 oz bottle & lid • 1 gray oil sample identification card • 1 live probe • 1 yellow mailer container for Denver.

"Live" Oil Samples

Individually shrink-wrapped. May be bought individually or sold boxed @ 25 per box. Round sticker on box identifies "Live" samples. This is considered a "basic" oil sample.

Price includes wear & additive elements, water, glycol, fuel dilution, viscosity at 100 C. \$13.50 to \$15.50 each, depending on qty.

SOS-CB

3 oz bottle & lid • 1 blue coolant sample identification card • 1 pc cut tubing. • 1 blue Level 1 tag • 1 live probe • 1 white mailer container for Denver.

"Level 1 Coolant" or "Coolant Basic"

Individually shrink-wrapped. Test work includes glycol percentage, pH, conductivity, and a measure of the corrosion protection. Visual exam for color, clarity, & precipitate. Sample price includes postage.

\$15.50 each, regardless of quantity.

SOS-CC

3 oz bottle & lid • 1 green coolant sample identification card • 1 pc cut tubing. • 1 green Level 2 tag • 1 live probe • 1 white mailer container for Denver.

"Level 2 Coolant" or "Coolant Complete"

Individually shrink-wrapped. Includes all tests above plus 4 corrosion metals, the amount of hard water minerals in the system, a measurement of chemicals that are unique to ELC, the amount of break-down from overheating, and other contaminants. A very complete report on cooling system condition. Sample price includes postage.

\$36.75

SOS-SPC

100 yellow mailer containers for Denver, each containing a 2 oz sample bottle with lid. • 100 gray oil sample identification cards, all rubber-banded together.

Packaging for customers who do not want their kits individually bagged. Bulk sample tubing is provided separately on a roll when needed. All samples are put in a plain brown cardboard box.

\$15.50 each, sold only in quantities of 100 or more.

SOS-CLN

2 oz bottle & lid • 1 gray oil sample identification card • 1 pc cut tubing • 1 pink sticker on bottle cap, sticker says "REPAIR FOLLOW UP" • 1 live probe • 1 yellow mailer container for Denver.

The shops use this to determine when a compartment is clean enough after repair to release a machine to the customer. Also shipped out with rebuilt components.

\$15.00 each, regardless of quantity.

SOS-FC

12 oz rigid plastic bottle • Cream colored fuel sample identification card • Printed sheet with sample procedure notes • Ziplock plastic bag • No shipping materials.

COMPLETE FUEL TEST

Fuel tests require a larger sample size than oil or coolant samples. Standard tests are for water, sediment, sulfur, API gravity, & centrifuge solids content. A visual is also done for color & clarity.

\$57.75 without shipping.

SOS-FC-W/SHIP

12 oz rigid plastic bottle • Cream colored fuel sample ID card • Printed sheet with sample procedure notes • Ziplock plastic bag • A large piece of absorbent material • Cardboard shipping box for fuel with special support pieces for "haz-mat" shipping • Pre-paid mailer label to ship box to Denver.

COMPLETE FUEL TEST WITH SHIPPING

All tests listed on SOS-FC, plus shipping materials and prepaid postage.

\$75.75 with shipping.

FLASHPT

4 oz sample bottle • White fuel sample identification card • Printed sheet with sample procedure notes • Ziplock plastic bag.

CK DIESEL FUEL FOR GASOLINE

Customer price of \$21 does not include shipping materials. Materials & postage to ship fuel legally would almost double the cost of this item.

\$25.00

PWRSYS-NATLACCT

12 oz rigid sample bottle • Special Power Systems identification card • 2 page instruction memo in bright envelope • Ziplock plastic bag for fuel sample bottle • A large piece of absorbent material • Cardboard shipping box for fuel with special support pieces for "haz-mat" shipping. • Prepaid mailer label to Denver for fuel sample • 2 OZ BOTTLE & LID FOR OIL • Special Power Systems identification card • 1 pc cut tubing • 1 yellow mailer canister for Denver • 2 OZ BOTTLE & LID FOR COOLANT • Special Power Systems identification card • 1 pc cut tubing • 1 white mailer canister for Denver • This kit is shipped in a 3-color printed box.

Fuel samples sold under this part number will have a visual report for color, clarity, type and amount of precipitate, and will have data reported for centrifuge solids. Postage is prepaid. This part number also includes one "regular" oil sample and one Level 1 coolant sample with prepaid postage.

\$88.00

SOS-BACT

Bright pink round cap sticker. Sticker says: BACT.

This is an add-on charge to run a bacteria test when other fuel tests are being run.

\$17.00 (used as an add-on charge to fuel samples).
