

VACUUM EXCAVATORS FROM THE INDUSTRY-LEADING INNOVATOR

DISTINCTIVE FEATURES

REVERSE FLOW VACUUM PUMP/BLOWER

- › Positive Displacement Blower
- › Fast tank emptying
- › Blow obstructions out of vacuum hose
- › Backflush filters for quick, easy cleaning

HYDRAULIC BOOM

- › Optional feature on all standard machines
- › Strongest boom in its class
- › Available with tethered or wireless multi-function remote control
- › Extends 10' to 14'

RUGGED, COMPACT, LOW-PROFILE, BALANCED DESIGNED CONSTRUCTION

- › Good visibility for driver
- › Stability in rough locations
- › Custom designed heavy-duty frames
- › Largest axle capacity in its class
- › Narrow frame
- › Low tongue weight for easy towing

FILTER

- › Can be back-flushed on the job
- › Very low back-pressure — gets your horsepower to the job
- › Built-in cyclonic separator
- › Nano-fiber coated for efficient and effective cleaning, via backflush or wash

PATENTED VIPER POT HOLE TOOL

- › The VIPER Pot Holes Tool is a Patented Ring-O-Matic exclusive
- › Potholes a 4' deep hole in about a minute
- › Uses a patented high quality rotating nozzle to shoot 3,500 psi water into the earth while a powerful vacuum simultaneously removes the spoil.
- › Comes in standard or dielectric options

PREMIUM SILENCER PACKAGE

- › Only 81 dbA
- › Reduced noise complaints from work site neighbors and machine operators

POWER DOOR LOCK

- › Hydraulically actuated
- › Single button operation

POSITIVE DISPLACEMENT VACUUM PUMP/BLOWER

- › Runs cooler for longer life
- › Compact sturdy design
- › Continuous duty and maximum reliability
- › Larger oil capacity
- › Low noise

POWERFUL WATER PUMP

- › 6.0 gpm and 4,000 psi capability
- › 40% more cutting power than competitors
- › Most powerful water pump in its class
